

This is a new and different approach to ink formulation that deserves an in-depth evaluation by quality minded printers.

Product Data Sheet
Advanced Set Series

Product Description

Advanced Set inks are a new development in sheetfed ink technology. In addition to being made for today's environment due to their soy content, these inks were also formulated to be the fastest setting system when printing on offset, matte, or dull stocks. They are extremely fast yet stable enough for the highest speed presses.

Performance Characteristics

- Ø Extremely fast set speed.
- Ø Excellent work and turn properties with high gloss.
- Ø Very low dot gain.
- Ø Better transfer and color stability during long press runs.
- Ø Excellent water balance and litho performance.
- Ø Inks will stay open on press for 24 to 48 hours.
